Claims 1, 17 and 48-51 are rejected on the ground of nonstatutory obviousness-type double patenting as being unpatentable over claims 1 and 17 of U.S. Patent No. 6,673,907 for the reasons set forth in the office Action of September 20, 2005.

Applicant's arguments filed December 20, 2005 have been fully considered but they are not persuasive.

Since the Terminal Disclaimer has not been filed at the time of the present Office Action, the above stated rejection has not been overcome.

Claims 1, 17 and 48-58 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

The term "comprising" (claims 1, 17 and 58) renders the claims indefinite since it renders the structural formula open-ended i.e. the scope of the invention cannot be determined.

Applicant's arguments filed December 20, 2005 have been fully considered but they are not persuasive.

Applicant states that "the term "comprising" is inclusive or open-ended, and does not exclude additional, unrecited elements or method steps". The instant claims are directed to a compound having a recited structural formula. As admitted by applicant, the term "comprising" means that the recited structural formula can have additional unrecited elements. However, the specification fails to provide any explanation as to what other unrecited elements can be present on the structural formula claimed. Therefore, the present claims are still deemed to be indefinite.

THIS ACTION IS MADE FINAL. Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than **SIX MONTHS** from the mailing date of this final action.
